# Ajouter un épargne

The illustration shows a hand-drawn iPhone with a dark grey case. The screen displays a financial application interface. At the top, the status bar shows 'ABC' and '03:35 PM'. The app title is 'Ajouter une épargne' with a back arrow and a settings gear icon. Below the title, there are two tabs: 'Prêt' and 'Épargne', with 'Épargne' being the active tab. The main form contains the following fields:

- Montant**: A label followed by a large input field showing '€ 300' and a '+ -' toggle.
- Nom**: A label followed by an input field containing 'Playstation 4'.
- Date début**: A label followed by a date picker showing '19/01/2016' and a dropdown arrow.
- Je mets ... par mois**: A label followed by a large input field showing '€ 20' and a '+ -' toggle.

At the bottom of the form, there are two buttons: a large 'X' for cancellation and a large checkmark for confirmation. Below these is a dock with five icons: a home icon, a document icon, a plus sign icon (highlighted with a square border), a list icon, and a calculator icon. The iPhone has a home button at the very bottom.
